GIS DATA REQUEST FORM

1. Please fill in the following information:

Name of Requestor:	Date Submitted:
Name of Organization:	Phone Number:
E-mail Address:	Mailing Address:

2. Choose Delivery Mechanism (check one):

- Customer will pick up from Borough Office (CD or USB Drive)
- Please Upload via a FTP Site
- Please Deliver via Standard US Postal Service Mail (CD or USB Drive)

3. Description of Request: (Include as much detail as you can)

HAINES BOROUGH GEOGRAPHIC INFORMATION SYSTEM DATA

DISCLAIMER AND LIMITATIONS

The data are compilations from several different sources, with several different levels of precision, prepared over a period of several years. The data were created or compiled by the Haines Borough to support government related tasks and not with other uses in mind. The data, particular the parcel layer, and zoning layer, is a snapshot of one point in time of information that is constantly changing hence may not be up to date or accurate. The data are intended to be used solely for information purposes, and are not replacements for legal documents, title reports, or survey plats. The data may contain a number of errors which may include but are not limited to the following types of errors:

- Spatial errors – The area depicted by these data are approximate, and are not necessarily accurate to surveying or engineering standard. X/Y coordinates may be in error by several hundred feet or more.
- Registration errors – GIS data layers may not overlay each other correctly.
- Attribute errors – Database information may be incorrect.

- Currency errors – GIS data layers, databases and documents may not be the most current available or may not depict the specified time. All data is subject to constant change.
- Completeness errors – Data may be missing or data may be included that does not belong.
- Projection distortion – All data projections introduce distortion by representing the irregular shape of the earth’s surface on flat maps. This affects feature shapes and map distances. We choose projections which minimize these distortions when viewing most Haines Borough maps.

The data are made available on the condition that users agree that the Haines Borough will not be held liable for any loss, injury, or damage of any kind, whether direct or indirect, resulting from any errors or omissions in the data.

I have read and understand the above and agree to abide by all legal restrictions identified herein on the use of this data.
